

Wider Impacts and Scenario Evaluation of Autonomous and Connected Transport

Termin: 2017-07-19 - 2021-06-22

Kierownik w IGiPZ PAN: Stępnia Marcini

Wykonawcy: [Piotr Rosik](#), Marcin Stępnia

Akronim: WISE-ACT

Program: COST

Partner wiodący: University of Greenwich

Partner zagraniczny: RMIT University (Australia), AustriaTech (Austria), University of Tuzla (Bośnia i Hercegowina), ESPM - ESPM Rio (Brazylia), CAVCOE (Kanada), Faculty of Traffic and Transport Sciences (Chorwacja), Transport Research Centre - CSV (Czechy), Czech Technical University in Prague (Czechy), Aalto University (Finlandia), Sorbonne Universities - UTC (Francja), Technical University of Munich (Niemcy), Rupprecht Consult (Niemcy), Hellenic Institute of Transport (Grecja), University of Aegan (Grecja), ATHENA Research

Instytucja zamawiająca: COST

Numer projektu: COST Action CA16222

Autonomous vehicle (AV) trials are currently taking place worldwide and Europe has a key role in the development of relevant technology. Yet, very limited research exists regarding the wider implications of the deployment of such vehicles on existing road infrastructure, since it is unclear if and when the transition period will start and conclude.

It is anticipated that improved accessibility and road safety will constitute the primary benefits of the widespread use of AVs, whilst co-benefits may also include reduced energy consumption, improved air quality or better use of urban space. Therefore, the focus of this [COST Action](#) is on observed and anticipated future mobility trends and implications on travel behaviour, namely car sharing, travel time use or residential location choice to name a few. Other important issues to be explored under different deployment scenarios are social, ethical, institutional and business impacts.

To achieve this, it is essential to culminate co-operation between a wide range of stakeholders at a local, national and international level, including academics and practitioners. Consequently, this [COST Action](#) will facilitate collaboration within Europe and beyond about this emerging topic of global interest.
