

Study of the impact of demographic and migration flows on Serbia.

Termin: 2011-01-01 - 2012-12-31

Kierownik: Marek Kupiszewski

Partner wiodący: Środkowoeuropejskie Forum Badań Migracyjnych i Ludnościowych
Instytucja zamawiająca: Komisja Europejska

The study is conducted within the project "Capacity building of institutions involved in migration management and reintegration of returnees in the Republic of Serbia" implemented by IOM Belgrade. Two main tasks of the study are:

1. Preparation of population and labour force projections and forecasts in several variants, including a "Status quo" projection and "No migration" simulations, for a period of 30 years (the starting date will be determined depending on data availability).
2. Analysis of the impact of migration and demographic trends on the development of population and labour force in Serbia as a guide for policymaking and planning.
