Remarks on the study program at the GeoPlanet Doctoral School

No.	Refers to	Content of the comment
1.	Item 4 Table 1	The government suggests clarifying the criteria for awarding ECTS points for individual specialization classes (e.g.: the criterion of the time devoted for the implementation of classes by a doctoral student)
2.	Item 5 Table 1	Proposition of awarding ECTS points not only for first-author articles, but also those in which the doctoral student is the second or third author, but his contribution to the publication is significant (e.g.: by specifying the percentage share of the contribution of doctoral student to a given publication)
3.	Item 8 Table 1	In point b): a proposal to increase the number of ECTS points from 0.25 to 0.5 for presenting a presentation at a national conference and awarding 0.25 points for presenting a poster at a national conference. In the opinion of the government, the disproportion between the number of ECTS points awarded for presenting a presentation and poster at an international conference and the number of points awarded for analogous activity at national conferences is detrimental to doctoral students.
4.	Item 11 Table 1	A request to clarify how many ECTS points are awarded for workshops and specialized training sessions lasting less than a week
